Yaeger's students have an 88% pass rate after using [Yaeger CPA review](#) materials (compared to the 47.49-49.10% pass rate for Uniform CPA Examination in 2008). The Yaeger team has been in the CPA review business since 1977.

Yaeger's lecture videos are taught by Dr. Yaeger and other experienced instructors on the Yaeger team. In each video, the instructor teaches the concepts first and then goes over the MCQ's. They identify the questions that will most likely appear on the cpa exam, so the student can focus on those and skip the ones that probably won't be on the exam.

Included with the [Yaeger CPA Review Home Study Course](#) is the "Instructors Hotline" service, which allows the student to call their instructors via an 800 number to ask any questions. A student can speak to the instructor for the particular section s/he has questions on. The instructor will spend as much time as is necessary to make sure the student has understood the topic before getting off the phone.

As for the price, [Yaeger's CPA Review Courses](#) are cheaper than other CPA exam review courses in the same category, including the CPA Becker Review, Bisk CPA review, and Roger Phillips CPA Review.

Some students that use other CPA courses to learn the study material but feel the need for additional supplements, turn to [Yaeger's Cram DVDs](#) which promise to add 5-15 points to the exam score. Each DVD condenses an entire CPA section into 7-16 hrs (depending on the section), and is designed to help identify the student's weaknesses and conquer them before doing the exam. Although these are also available as webinars, they expire in a month, whereas the DVD versions will never expire.

Yaeger is diligent in updating its cpa review materials. They re-film all their DVD lectures every year to ensure that the student is getting the most up-to-date materials.

To call Dr. Phil Yaeger directly to ask any questions before purchasing the materials, his phone number can be found halfway down [this page \(click here\)](#).

Prices:

Yaeger Complete HomeStudy Course - \$1,550 (\$495/section purchased separately)

Yaeger's Cram Courses - from \$99-\$254 per section

Recommended Materials:

If you're studying for CPA From Scratch, or have failed exams by >15 points, consider getting the [Yaeger HomeStudy Course](#) (Individual Sections, Complete Course, or Combo 1/2/3).

For supplementing your current CPA review course, or if you've failed exams by <15 Points, the [Yaeger Cram Courses](#) should give you the extra marks you need to pass.
